## Municipal waste:

- household waste, including bulky ones
- non-hazardous waste similar to municipal waste in type and quantity
- waste from street cleaning
- greens waste from parks and gardens
- waste from cemeterial activities

**Separate waste collection:** consists in municipal waste (including wet bio-waste) being segregated by waste type for re-use, recycling and reclamation of materials. It regards paper, glass, plastic, bio-waste, metals, bulky recyclable waste, textiles and other. Wet bio-waste is collected separately by means of either reusable collection containers or certified biodegradable sacks

\* data are influenced by a lower taxation for new car registration

**Natural balance:** difference between the number of births and the number of deaths among the resident population occurred both in Italy and abroad

**Registration and cancellation balance:** difference between the number of new registrations in and the number of cancellations from the Register Offices among the resident population occurred in Italy. New registrations and removals may be due to relocation from/to another Italian municipality; or relocation from/to a foreign country; or other reasons

**Residence permits:** documents issued by the Italian police authorities which give foreigners the right to legally stay in Italy (usually minors are recorded in their parents' permit). Since 1<sup>st</sup> January 2008 European citizens are not included either, following the regulation n. 2004/38/EC on the right of citizens of the Union to move and reside freely within the territory of the Member States

## SMOKERS BY NUMBER OF DAILY CIGARETTES SMOKED IN 2007

**Induced abortions:** there has been a sharp reduction since Law n. 194/78 made induced abortions legal in Italy. 1982 and 1983 were the peak years, with a number of interventions exceeding 230,000 per year and an abortion rate of 16.7 and 16.4 respectively per 1,000 resident women aged 15 to 49. From that moment on, the number of induced abortions and the abortion rate progressively reduced to 9 per 1,000

**Body Mass Index (BMI):** determined dividing the body weight in kilograms by the squared height in meters. A BMI under 18.5 is considered underweight, one of 18.5-24.99 is considered a healthy weight, one of 25-29.99 is overweight and one of 30 or more is obese

## PERSONS BY BODY MASS INDEX

2007, per 100 persons aged 18 and over

**Sport practise:** in 2008, 21.6% of population aged 3 and over practised continuously one sport and over 9.7% did it discontinuously. People who do not do any sport amounted to 40.2%: 44.9% of women and 35.3% of men. Data on sport practise (available since 1982 for continuous sport activities and for persons aged 6 and over) highlight that participation has come back to rise after the slowdown registered between 1988 and 1995 (from 23% to 18%). Since 2003 the percentage of population aged 6 and over practising sport has been quite stable

**The reform of the university system:** as stated in Law n. 127/97 and Law n. 5094/99, academic courses are organised in two cycles according to the so called "3+2" formula:

- the first three-year cycle leads to a 1<sup>st</sup> level degree;
- the second, two-year cycle, enables students to achieve a 2<sup>nd</sup> level degree.

The one-long cycle degree courses (5 or 6 years), equivalent to the old system degree courses, are still in force for architecture, civil engineering, pharmacy, dentistry, veterinary science and medicine; the Ministerial order n. 270/2004 included law courses in the above group

**Labour force survey:** provides official estimates for employed, job-seekers and main labour market aggregates. Data are collected every year on a sample of 300,000 resident households. People permanently living abroad, in communities, religious institutes, barracks and similar are therefore not included in the survey. Starting from 2004, the survey is carried out

on a continuous basis as data are collected every week of the year, although results are published every three months

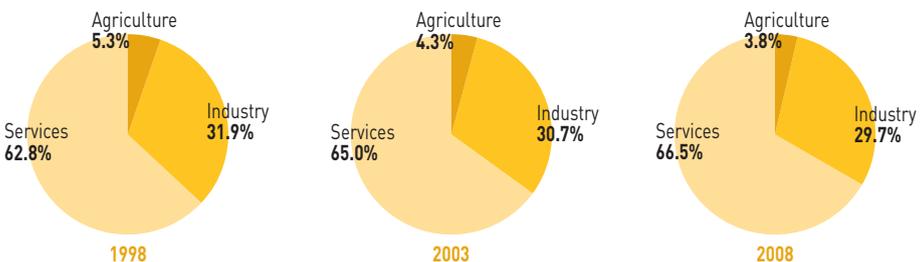

**Labour force:** includes persons employed and job-seekers

Istat is present over the whole territory thanks to its, **Statistical Information Centres**, the so-called CIS.

Opened in 1995 and located in every Italian region and autonomous province, they offer various services to meet the needs of every type of user.

Besides consulting and buying all publishing products, it is also possible to:

- receive help in searching for official statistical data
- request customised statistical elaborations
- consult Istat's databases
- obtain certificates of consumer price indices
- subscribe to publishing products.

You can contact the Statistical Information Centres at the following address: <http://contact.istat.it>

This easy-to-read leaflet portrays Italy to let people know more about its identity and transformations.

Divided into 16 themes, it synthetically describes the main economic, demographic, social and territorial aspects of Italy as well as some basic habits and behaviours of its population.

In-depth sections, glossaries and brief methodological notes allow even a non-expert public to take advantage of the information wealth.

Distributed to the media, opinion leaders, international institutions, you may obtain a free copy from Istat Statistical Information Centres in any region or autonomous province or request a copy to the Division for Communication and Publishing. Alternatively, you may download its full version or browse each chapter from the website homepage [www.istat.it](http://www.istat.it).
