

## Construction costs index for residential building

May 2013

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In May 2013 the index increased by 0.4% compared with the previous month.

The index rose by 0.7% compared with May 2012.
