

Construction costs index for residential building

June 2014

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In June 2014 the index increased by 0.1% compared with the previous month and decreased by 0.4% compared with June 2013.

Construction costs index for residential building. June 2014 (a)
