

## Construction costs index for residential buildings

October 2014

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In October 2014 the index remained decreased by 0.2% compared with the previous month and increased by 0.1% compared with October 2013.

**Construction costs index for residential buildings.** October 2014 (a)
