

Costs index for road construction

October 2014

The costs index for road construction approximates the monthly evolution of costs of two types of roads: with and without tunnel section. Since January 2013 the indices are calculated with reference to the base year 2010.

In October 2014 the index of tunnel section decreased by 0.3% compared with the previous month and by 0.7% compared with October 2013. The index without tunnel section decreased by 0.4% compared with the previous month and by 0.8% compared with October 2013.
