GLOSSARY

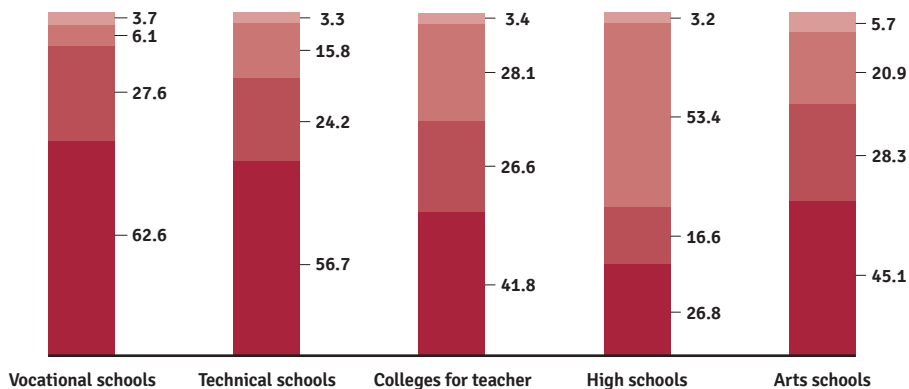

THE UNIVERSITY SYSTEM: the university system is divided into three cycles. The first cycle includes three-year courses leading to the new Bachelor's degree. The second cycle, leading to the Master's degree, includes second-level courses which can be of two years duration (they can be accessed with the Bachelor's degree) or have a long single cycle structure (they can be accessed with an upper secondary school diploma and last 5-6 years: Architecture-Civil Engineering, Pharmacy, Dentistry, Veterinary Science, Law, Medicine, Primary education sciences and Chemistry and Pharmacy). The third cycle includes three-year courses which can be accessed with the Master's degree and lead to the Doctoral degree. Although decreasing, some courses of the old system still exist, i.e. those lasting 4-6 years leading to the Master's degree and those lasting 3 years leading to the Bachelor's degree.
