

Dear Sir / Madam,

Your family has been included by Istat – National Institute of Statistics – in the 2023 Permanent Census of the Population and the Housing that collects information on the main characteristics of the population in the area. Every year, Istat randomly extracts a list of addresses in the sample Municipalities.

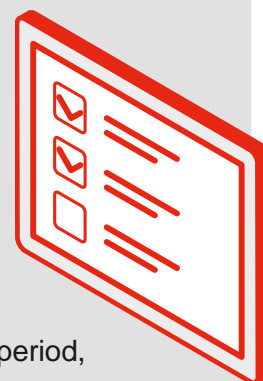

The survey is run from **17 October** to **22 November 2023** and envisages answering a questionnaire. **Replying to the questionnaire is an obligation** for the families involved and penalties are applicable in the instances referred to in the paragraph headed "Obligation to reply and penalties" on the following page.

HOW TO ANSWER THE QUESTIONNAIRE

From 17 October to 22 November, a municipal surveyor will come to your home with tablet and identification card to conduct the interview.

Alternatively, **only after providing some personal information to the surveyor**, your family will be able to:

- independently fill in the questionnaire using the surveyor's tablet;
- approaching the Municipal Survey Centres (CCR), operating throughout the survey period, where you will be able to fill in the questionnaire independently or through an interview conducted by a municipal operator.

All the information collected is necessary for the production of official statistics for the benefit of the country and is processed in full compliance with laws on personal data protection. Your family's participation is essential.

Thanks for the collaboration.

The President
