

## Construction costs index for residential building

*April 2013*

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In April 2013 the index decreases by 0.1% compared with the previous month.

The index rose by 0.4% compared with April 2012.

**Construction costs index for residential building.** April 2013 (a)

	Percentage changes
