

Occupancy of tourist accommodation establishments

I quarter 2014

The survey "Occupancy of tourist accommodation establishments" is a monthly census and it is carried out through the local tourism bodies (mainly the Regional offices). It collects mainly data on arrivals and nights spent (by residents and non-residents) at tourist accommodation establishments in Italy. The accommodation establishments are classified into two main typologies: hotels and similar accommodation and other collective accommodation establishments.

In the first quarter of 2014 arrivals at tourist accommodation establishments decreased by 4.4 percent and the number of nights spent by 4.9 percent, compared with the same period of the previous year. The average length of stay changed from 2.98 days in the first quarter of 2013 to 2.96 in the same period of 2014.

Arrivals, nights spent and average length of stay at tourist accommodation establishments

I Quarter 2014, absolute values and % changes (a)(b)
