

Industrial producer prices

August 2014

The industrial producer price index measures the evolution of output prices for goods manufactured in Italy and sold on the domestic and non-domestic markets. Since January 2014 indices are compiled in the calculation base December 2013 and disseminated in reference base 2010.

In August 2014 the total producer price index was unchanged with respect to the previous month; the index of producer price shows no variation both on domestic market and non-domestic market. The percentage change of the average of the last three months compared to the previous three months was -0.2% (-0.2% on domestic market and +0.2% on non-domestic market).

The index decreased by 1.7% compared with August 2013 (-2.0% on domestic market and -0.2% on non-domestic market).
