

Costs index for residential building and for road construction

January 2015

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In January 2015 the index remained unchanged compared with the previous month and increased by 0.5% compared with January 2014.

Construction costs index for residential building. January 2015 (a)

	Percentage changes	
	Jan 2015 Dec 2014	Jan 2015 Jan 2014
