

Costs index for residential building and for road construction

April 2015

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In April 2015 the index decreased by 0.1% compared with the previous month and increased by 0.2% compared with April 2014.

Construction costs index for residential building. April 2015 (a)

	Percentage changes	
	Apr 2015 Mar 2015	Apr 2015 Apr 2014
