

Seventh International  
Conference on  
Agricultural Statistics

Modernization of  
**Agricultural  
Statistics**  
in Support  
of the Sustainable  
Development  
Agenda

Rome  
26•27•28  
OCTOBER  
2016

# Modernization of agricultural statistics to respond to new multidimensional demands

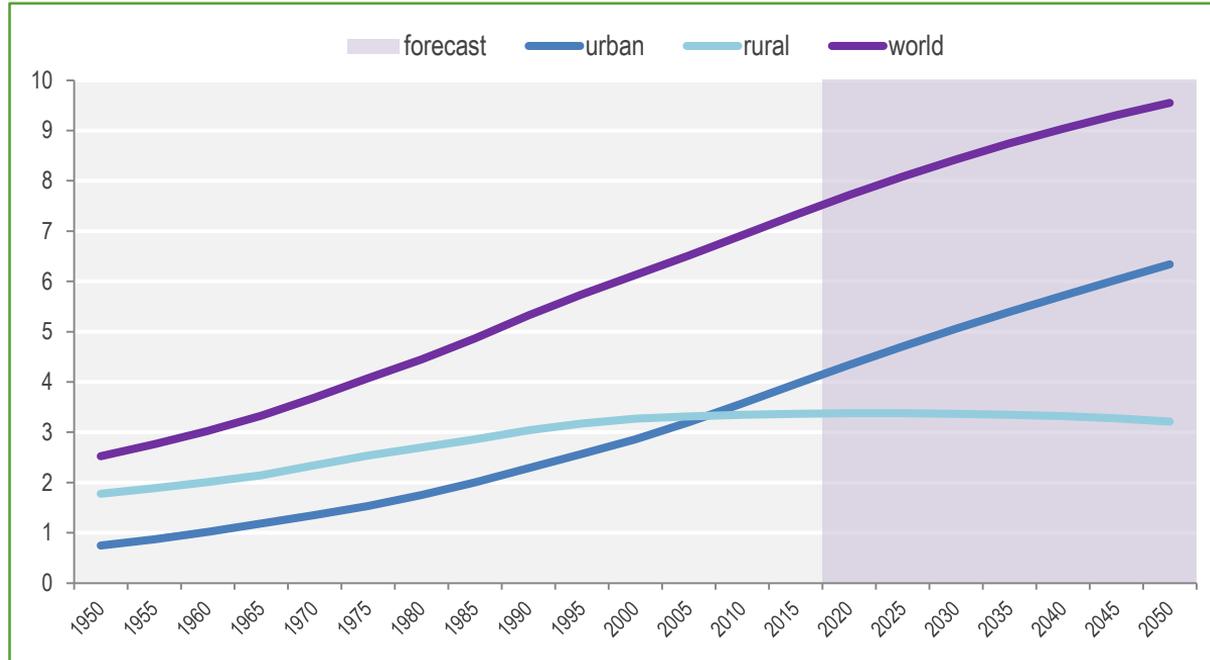

**Giorgio Alleva**

President of the Italian National Institute of Statistics  
ISTAT

# Outline

- ① Global agriculture: facts and figures
- ② Challenges ahead for agricultural statistics
- ③ Quality and methodological issues
- ④ Modernization
- ⑤ Conclusions

# World population forecasts

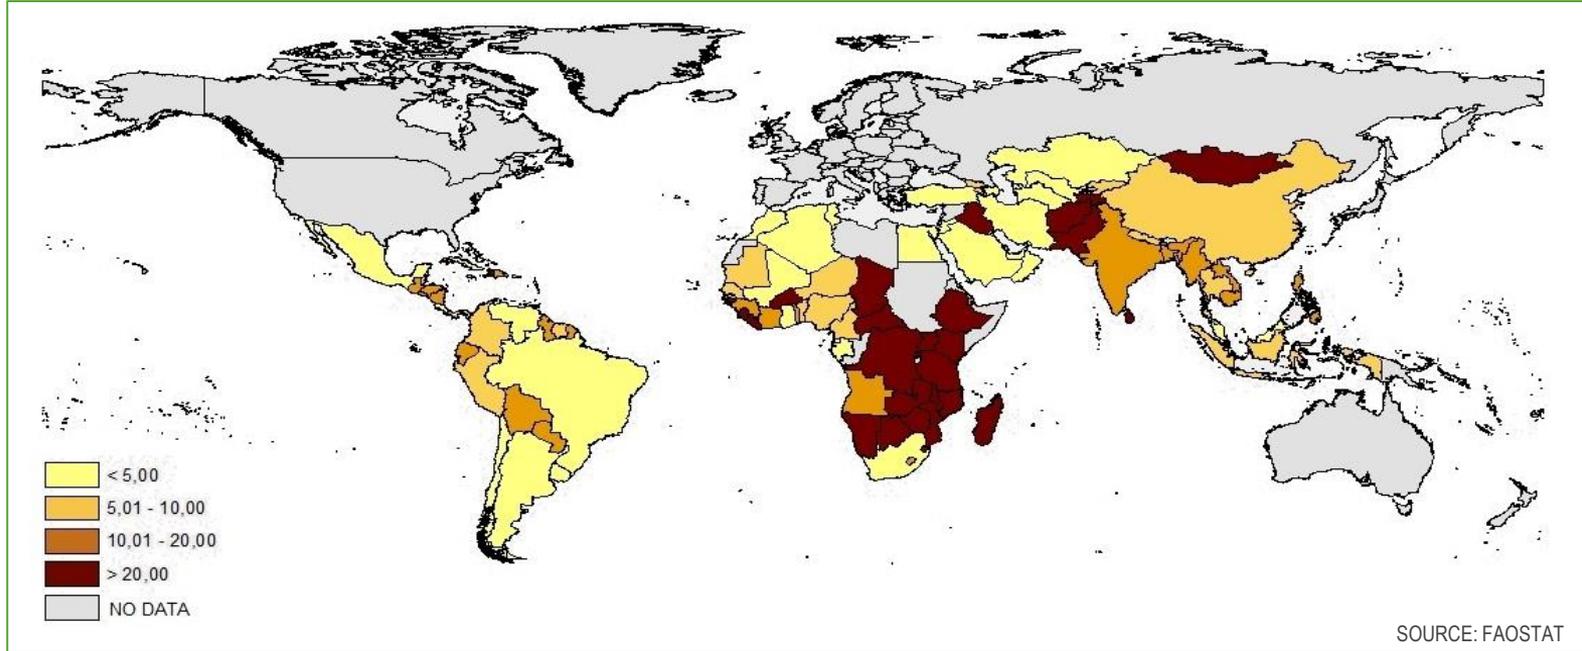

POPULATION AT MID-YEAR,  
1950-2050 (BILLIONS)

SOURCE: UN WORLD URBANIZATION PROSPECTS

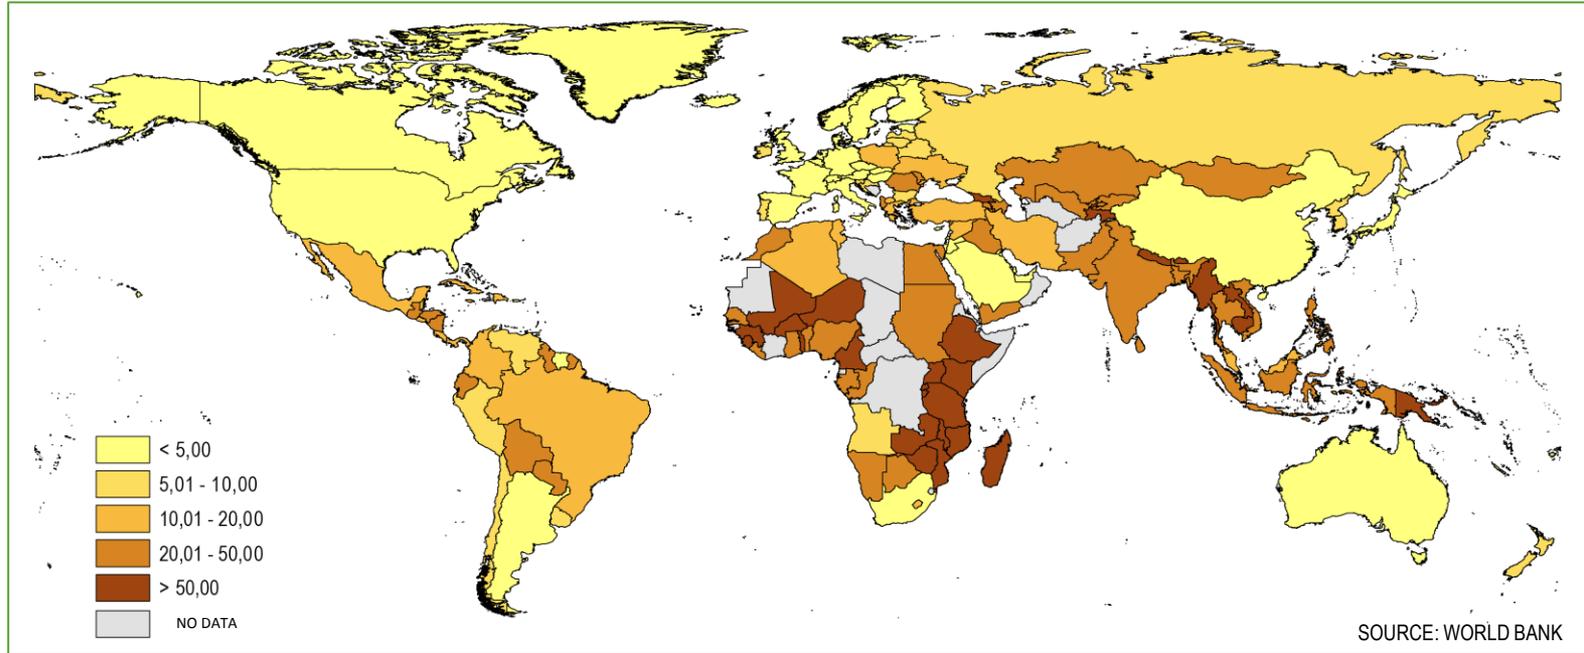

# Undernourishment

PEOPLE UNDERNOURISHED, 2014-2016 (PERCENTAGE)

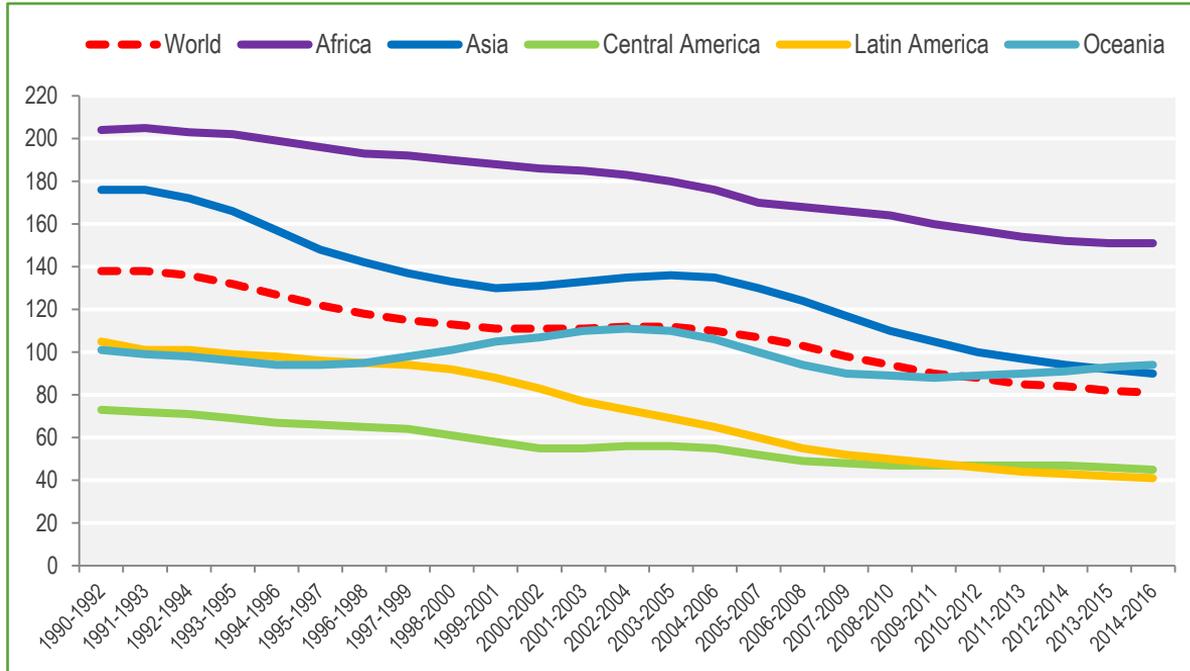

# Employment

EMPLOYMENT IN AGRICULTURE, 2014, OTHERWISE LATEST AVAILABLE (PERCENTAGE OF TOTAL EMPLOYMENT)

# Food deficit

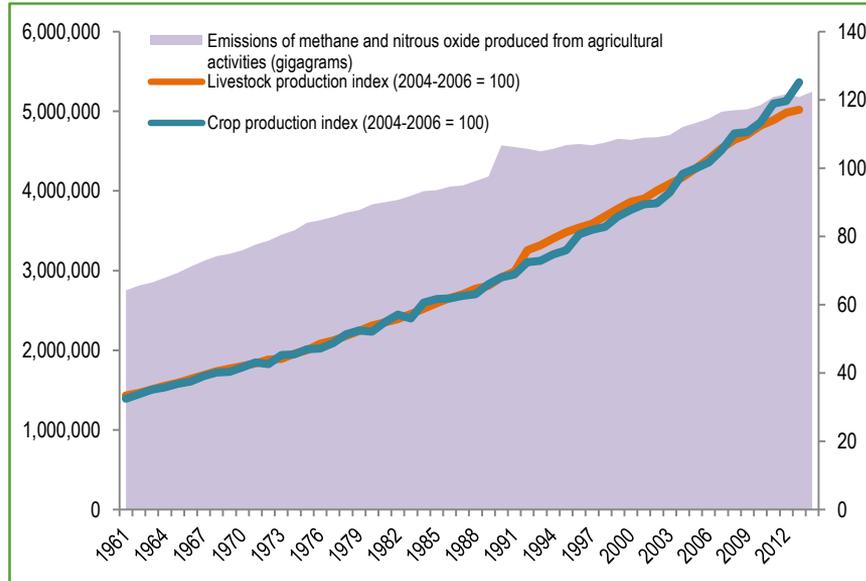

SOURCE: FAOSTAT

DEPTH OF THE FOOD DEFICIT,  
1990-2016– 3 YEAR AVERAGE  
(KCAL/PER CAPITA/PER DAY)

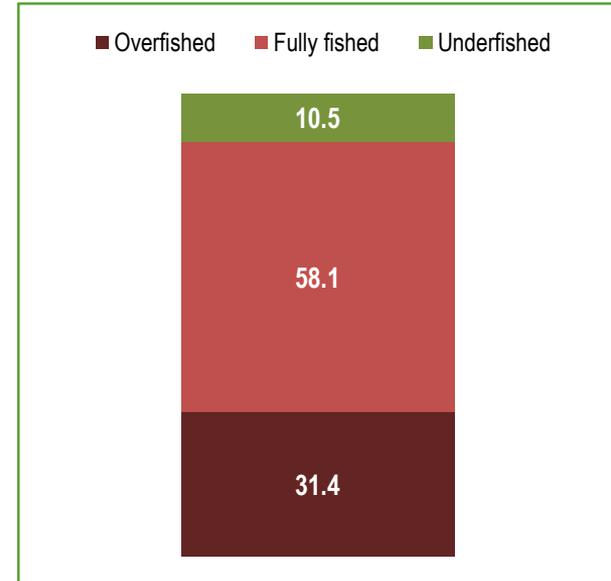

# Environmental impact

## EMISSIONS AND PRODUCTION, 1961-2014 (ABSOLUTE VALUES, INDEXES)

SOURCE: WORLD BANK

## WORLD MARINE FISH STOCKS, 2013 (PERCENTAGE)

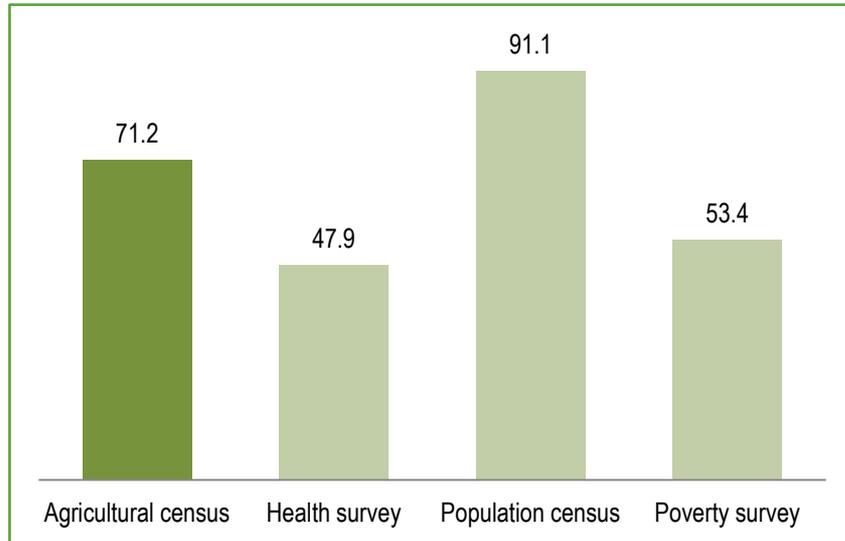

SOURCE: FAO, SOPHIA REPORT 2016

# SDGs and agriculture

# Statistical capacity

SHARE OF COUNTRIES THAT CONDUCTED  
DATA COLLECTION ACTIVITIES IN LINE  
WITH INTERNATIONALLY RECOMMENDED PERIODICITY

SOURCE: WORLD BANK

- Even if data availability has improved under the MDGs, more work and resources are needed to answer to the SDGs challenges
- Today still too many developing countries are lacking the agriculture census

# A global system for agricultural statistics

**A VISION COHERENT  
WITH THE MODERNIZATION  
PERSPECTIVE**

- Producing minimum set of core economic, social, environmental and geographical core data
- Better integrate agricultural statistics into National Statistical Systems
- Improving governance and statistical capacity building

# Quality

- Relevance
- Reliability
- Effectiveness
- Professional independence
- Sound methodology
- Accuracy
- Timeliness and punctuality
- Coherence and comparability
- Accessibility and clarity

# Challenges

- Measure new complex cross-cutting issues
- Reduce the use of surveys and the response burden
- Satisfy multidimensional demand for good quality statistics
- Consistency checks are important especially in case of multiple sources
- Data collections should not be duplicated
- Re-think data capturing systems
- Improve human capital skills

# Methodological issues

	SURVEYS	ADMINISTRATIVE DATA	EXPERT ESTIMATIONS	MATHEMATICAL MODELS	REMOTE SENSING	BIG DATA
Cost	*/**	*****	***	*****	**	**/*****
Error	*****	**	*	*****	***	**/*****
Methodological background	*****	**	*	*****	*	**/*****
Timeliness	*/*****	**/*****	*****	*****	*****	***

 \*\*  
 \*

# A new paradigm

*«We can and must move from a paradigm of producing the best estimates possible from a survey to that of producing the best possible estimates to meet user needs from multiple data sources»*

C. Citro

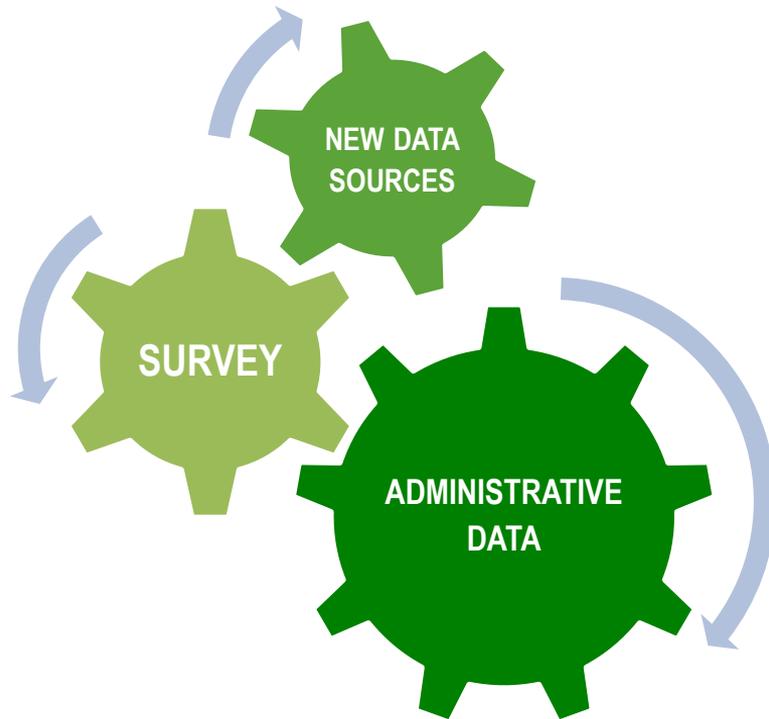

How to choose between these methods?

How to combine them?

- Key concepts: data quality, time series continuity, territorial details, efficiency
- Transparency
- Data flows mapping recommended
- Good relationships and synergies with other significant producers

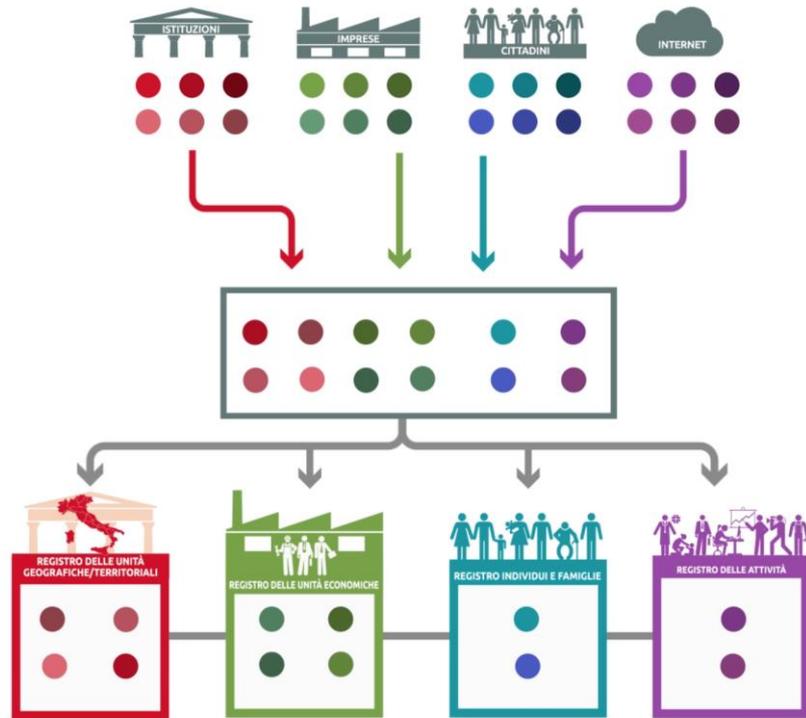

# Modernization: drawn value from data

- Assessing users **needs**
- Giving **incentives** to sustain data quality
- **Integrating** and **linking** data
- Implementing a sound **legal framework**
- Enhancing and reorienting **skills**
- Moving from **'silo'** model
- Reducing **burden**
- Increasing **technology** use

# Modernization: the register-based statistical system

# World Program for the Census of Agriculture

- The World Program for the Census of Agriculture is setting definitions, concepts, standards and guidelines to ensure comparability across Countries
- WCA 2020 examines 4 different possibilities for census (classical, modular, integrated census/survey, combined with administrative data)
- Focus on ICT use

# Key words

QUALITY

RESEARCH

TRUST

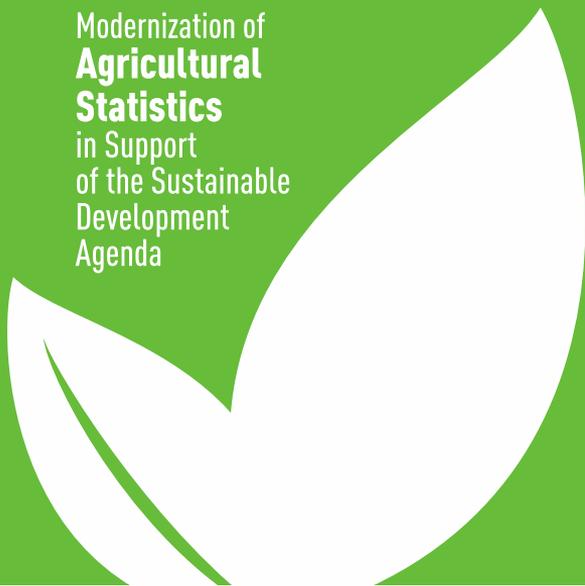

COMPETENCIES

PARTNERSHIP

Seventh International  
Conference on  
Agricultural Statistics

Modernization of  
**Agricultural  
Statistics**  
in Support  
of the Sustainable  
Development  
Agenda

# THANK YOU

and enjoy  
the Seventh International  
Conference on  
Agricultural Statistics
