

Industrial producer prices

November 2015

The industrial producer price index measures the evolution of output prices for goods manufactured in Italy and sold on the domestic and non-domestic markets. Since January 2015 indices are compiled in the calculation base December 2014 and disseminated in reference base 2010.

In November 2015 the total producer price index decreased by 0.5% compared with the previous month; the index of producer price decreased by 0.6% on domestic and is not changed on the non-domestic market. The percentage change of the average of the last three months compared to the previous three months decreased by 1.2% (-1.3% on domestic market and -0.7% on non-domestic market).

The index decreased by 3.3% compared with November 2014 (-4.2% on domestic market and -0.6% on non-domestic market).
