

Industrial producer prices

December 2016

The industrial producer price index measures the evolution of output prices for goods manufactured in Italy and sold on the domestic and non-domestic markets. Since January 2016 indices are compiled in the calculation base December 2015 and disseminated in reference base 2010.

In December 2016 the total producer price index increased by 0.6% with respect to the previous month; the index of producer price increased by 0.6% on domestic market and it increased by 0.5% on non-domestic market. The percentage change of the average of the last three months compared to the previous three months was unchanged (-0.1% on domestic market and +0.4% on non-domestic market).

The index increased by 0.9% compared with December 2015 (+0.9% on domestic market and +0.7% on non-domestic market).
