

## Industrial production

January 2018

The index measures the monthly evolution of the volume of industrial production (excluding construction). With effect from January 2018 the indices are calculated with reference to the base year 2015 using the Ateco 2007 classification (Italian edition of Nace Rev. 2).

In January 2018 the industrial production index seasonally adjusted decreased by 1.9% compared with the previous month. The percentage change of the average of the last three months with respect to the previous three months was +1.0%.

The calendar adjusted industrial production index increased by 4.0% compared with January 2017 (calendar working days being 22 versus 21 days in January 2017).

The unadjusted industrial production index increased by 7.3% compared with January 2017.

Indices of industrial production (a). January 2018 (b)

Indices	Index (2015=100)	Percentage changes		
		Jan 18 Dec 17	Nov 17-Jan 18 Aug 17-Oct 17	Jan 18 Jan 17
Industrial production seasonally adjusted	107.2	-1.9	+1.0	-
Industrial production calendar adjusted	100.4	-	-	+4.0
Industrial production unadjusted	104.1	-	-	+7.3
Calendar working days	22			

(a) Excluding construction.

(b) Data are provisional and subject to revisions. The first revision takes place with the dissemination of the following month and takes into account additional information received from enterprises.
