

Industrial production

May 2018

The index measures the monthly evolution of the volume of industrial production (excluding construction). With effect from January 2018 the indices are calculated with reference to the base year 2015 using the Ateco 2007 classification (Italian edition of Nace Rev. 2).

In May 2018 the seasonally adjusted industrial production index increased by 0.7% compared with the previous month. The percentage change of the average of the last three months with respect to the previous three months was -0.4.

The calendar adjusted industrial production index increased by 2.1% compared with May 2017 (calendar working days in May 2018 being the same as in May 2017); in the period January- May 2018 the percentage change was +2.8 compared with the same period of 2017.

The unadjusted industrial production index increased by 2.1% compared with May 2017.
