

Notification of general government deficit and debt according to the excessive deficit procedure

Years 2014-2017

In this release, Istat provides government deficit and debt data based on figures reported in the first 2018 notification by Italy to the EC¹ for the years 2014-2017, for the application of the excessive deficit procedure (EDP). This notification is based on the ESA 2010 system of national accounts. No reservations have been expressed by Eurostat on the data reported by Italy.

The data published today are the same already disseminated on the 21th of September:

(<https://www.istat.it/en/archivio/221218> "Annual national accounts").

Istat also provides information on the underlying government sector accounts, as well as on the contribution of deficit/surplus and other relevant factors to the variation in the debt level (stock-flow adjustment).

According to the Protocol on the excessive deficit procedure annexed to the EC Treaty, government deficit (surplus) means the net borrowing (net lending) of the whole general government sector (central government, state government, local government and social security funds). It is calculated according to national accounts concepts (European System of Accounts, ESA 2010). Government debt is the consolidated gross debt of the whole general government sector outstanding at the end of the year (at nominal value). For further references see the "[Manual on government deficit and debt – Implementation of ESA 2010](#)", 2016 edition:

The government deficit to GDP ratio decreased from 2.5% in 2016 to 2.4% in 2017. The primary surplus as a percentage of GDP was 1.4% in 2017, unchanged with respect to 2016.

The government debt to GDP ratio was 131.2% at the end of 2017, down by 0.2 percentage points with respect to the end of 2016. Data concerning the general government debt are compiled and disseminated by the Bank of Italy².

TABLE 1. MAIN AGGREGATES OF GOVERNMENT FINANCE STATISTICS
YEARS 2014-2017(a), data in millions of euro and in percentage of GDP

	2014 (b)	2015 (b)	2016 (c)	2017 (c)
Net borrowing (-)	-49.340	-43.153	-42.937	-41.060
<i>as a percentage of GDP</i>	-3,0	-2,6	-2,5	-2,4
General government consolidated gross debt (d)	2.137.322	2.173.403	2.219.581	2.263.479
<i>as a percentage of GDP</i>	131,8	131,6	131,4	131,2
Interest expenditure	74.379	68.061	66.300	65.515
<i>as a percentage of GDP</i>	4,6	4,1	3,9	3,8
Net borrowing net of interest	25.039	24.908	23.363	24.455
<i>as a percentage of GDP</i>	1,5	1,5	1,4	1,4
GDP	1.621.827	1.652.085	1.689.748	1.724.954

(a) Possible differences in the sums are due to rounding off.

(b) Final data.

(c) Half-finalized data.

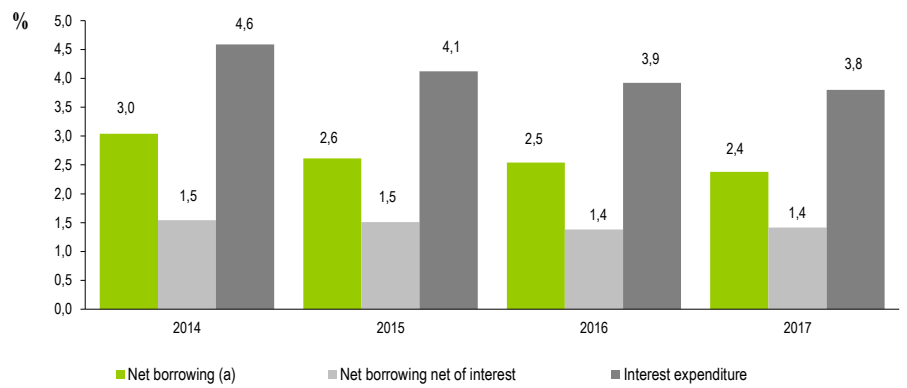

(d) Final data for the years 2014-2017.
