

## Industrial producer prices

*July 2011*

The industrial producer price index measures the evolution of output prices for goods manufactured in Italy and sold on the domestic and non-domestic markets. Since January 2011 indices are compiled in the calculation base December 2010 and disseminated in reference base 2005.

In July 2011 the total producer price index increased by 0.3% with respect to the previous month; the index of producer prices rose by 0.3% both on domestic market and non domestic market. The percentage change of the average of the last three months compared to the previous three months was +0.8 (+0.6 on domestic market and +1.0 on non domestic one).

The index rose by 4.7% compared with July 2010 (+4.9% on domestic market and +4.0% on non-domestic market).
