

Industrial producer prices

December 2011

The industrial producer price index measures the evolution of output prices for goods manufactured in Italy and sold on the domestic and non-domestic markets. Since January 2011 indices are compiled in the calculation base December 2010 and disseminated in reference base 2005.

In December 2011 the total producer price index increased by 0.1% with respect to the previous month; the index of producer prices rise by 0.1% both on domestic and non domestic market. The percentage change of the average of the last three months compared to the previous three months was +0.2% (+0.3% on domestic market and +0.2% on non domestic market).

The index rose by 3.8% compared with December 2010 (+4.0% on domestic market and +2.9% on non-domestic market).
