

Services producer price indices: postal and courier activities and telecommunications

Quarter III 2012

Services Producer Price Indices (SPPIs) or Output Price Indices for Services measure quarterly changes in the prices received for services provided by enterprises to other enterprises and Government. This means the SPPIs cover what are commonly known as business to business transactions, thus leaving out sales to consumers. The indices are chained based, their reference base year is 2006=100 and are calculated according to Ateco 2007 classification (Italian edition of Nace Rev. 2).

In quarter III 2012 the producer price index in the sector of Postal and courier activities fell by 1.6% compared with the previous quarter and by 0.7% compared with the same quarter of 2011.

In quarter III 2012 the index of Telecommunications had no change compared with the previous quarter (-0.6% for wired telecommunications activities and +1.1% for wireless telecommunications activities) and decreased by 5.1% compared with the same quarter of the previous year (-3.3% for wired telecommunications activities and -9.1% for the wireless ones).

Postal and courier activities and telecommunications producer price indices – III quarter 2012

| Economic activities (NACE rev. 2) | Index number (2006=100) | Percentage changes | | |
|-----------------------------------------------|-------------------------|---------------------|----------------------|------------------------|
| | III quarter 2012 | III 2012 II 2012 | III 2012 III 2011 | I-IV 2011 I-IV 2010 |
| H53 Postal and courier activities | 97.9 | -1.6 | -0.7 | -0.5 |
| JB61 Telecommunications | 71.2 | 0,0 | -5.1 | -3.8 |
| JB 611 Wired telecommunications activities | 79.5 | -0.6 | -3,3 | -1.6 |
