

Industrial producer prices

February 2013

The industrial producer price index measures the evolution of output prices for goods manufactured in Italy and sold on the domestic and non-domestic markets. Since January 2013 indices are compiled in the calculation base December 2012 and disseminated in reference base 2010.

In February 2013 the total producer price index increased by 0.1% with respect to the previous month; the index of producer prices rose by 0.2% on domestic market and fell by 0.1 on non domestic market. The percentage change of the average of the last three months compared to the previous three months was -0.8% (-1.1% on domestic market and -0.2% on non domestic market).

The index rose by 0.3% compared with February 2012 (+0.5% on domestic market and -0.1% on non-domestic market).
