

## Construction costs index for residential building

*December 2013*

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In December 2013 the index decreased by 0.1% compared with the previous month.

The index rose by 0.3% compared with December 2012.

The index for 2013 increased by 0.7% over the previous year.

**Construction costs index for residential building.** December 2013 (a)
