

Construction costs index for residential building

January 2014

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In January 2014 the index decreased by 0.2% compared with the previous month and January 2013.

Construction costs index for residential building. January 2014 (a)
