

Industrial producer prices

February 2014

The industrial producer price index measures the evolution of output prices for goods manufactured in Italy and sold on the domestic and non-domestic markets. Since January 2014 indices are compiled in the calculation base December 2013 and disseminated in reference base 2010.

In February 2014 the total producer price index was unchanged with respect to the previous month; the index of producer prices was unchanged also on domestic market and rose by 0.1% on non-domestic market. The percentage change of the average of the last three months compared to the previous three months was -0.5% (-0.5% on domestic market and -0.2% on non-domestic market).

The index decreased by 1.4% compared with February 2013 (-1.7% on domestic market and -0.4% on non-domestic market).
