Dutch LFS

Mixed mode design

1987-
2000

CAPI

+ Quality
+ Efficient to collect all information at once

- Expensive
- No panel data

Dutch LFS

Mixed mode design

1987-
2000

CAPI

2001-
2010

CAPI

CATI

CATI

CATI

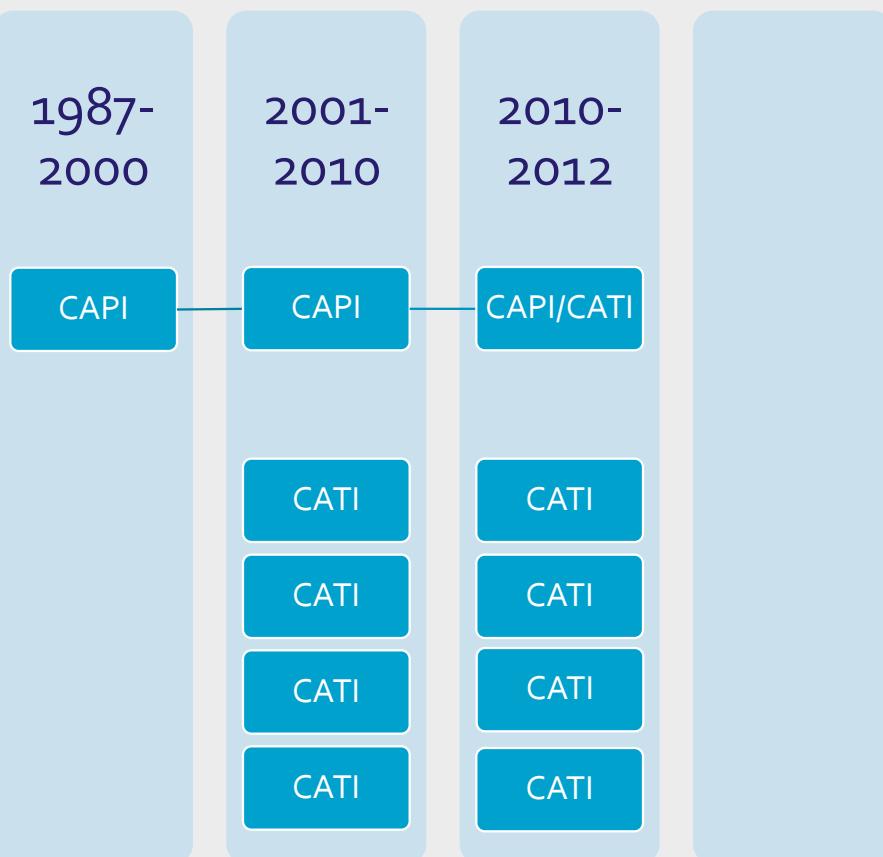

CATI

- + Quality first wave equal
- + Efficient additional data collection
- + Panel data

- Expensive
- RGB
- Does not take into account respondents' needs

Dutch LFS

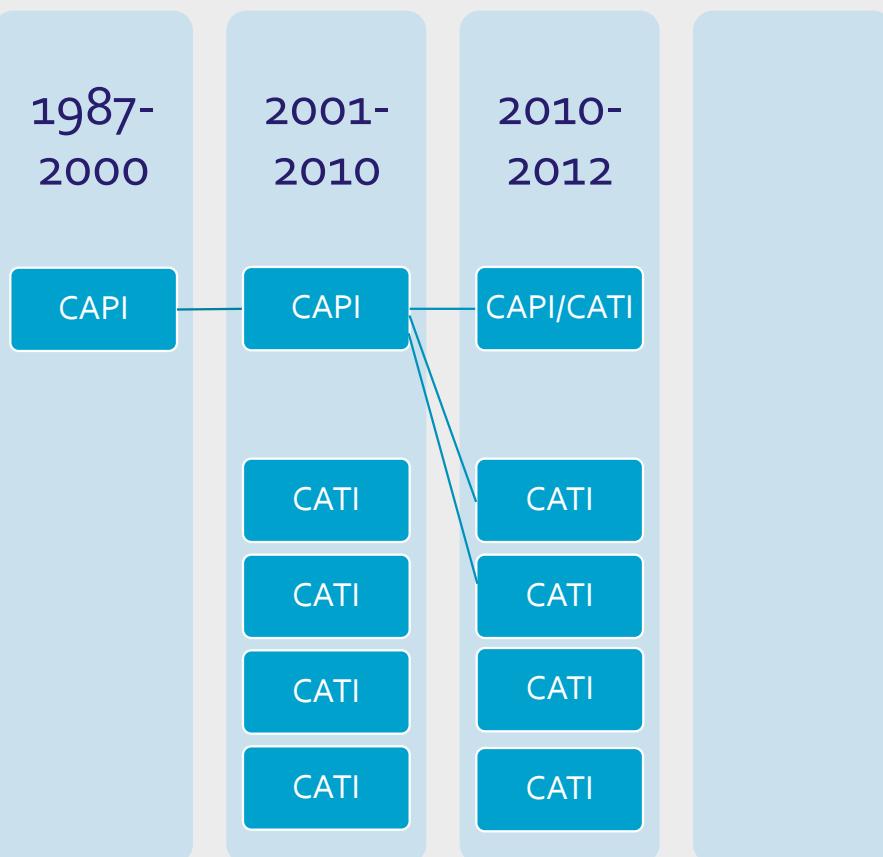

Mixed mode design

- + More efficient data collection
- Still rather expensive
- Does not take into account respondents' needs
- Temporary solution...

Dutch LFS

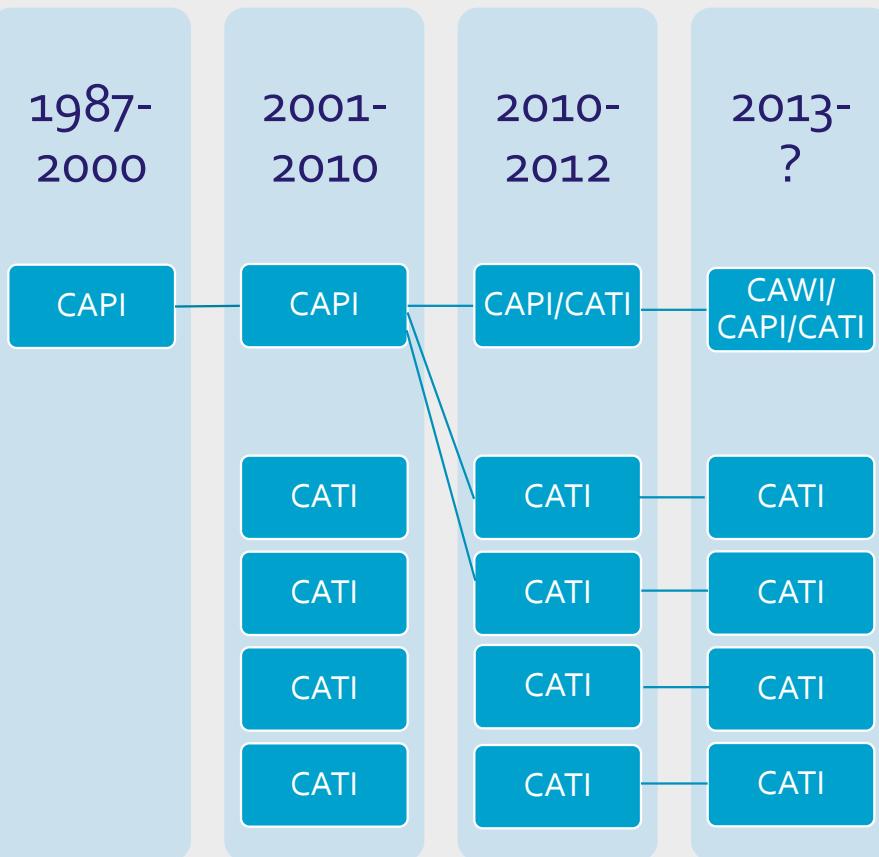

Mixed mode design

- + More efficient data collection
- + Modularization: flexibility
- Still rather expensive
- Does not take into account respondents' needs
- Temporary solution...

Dutch LFS

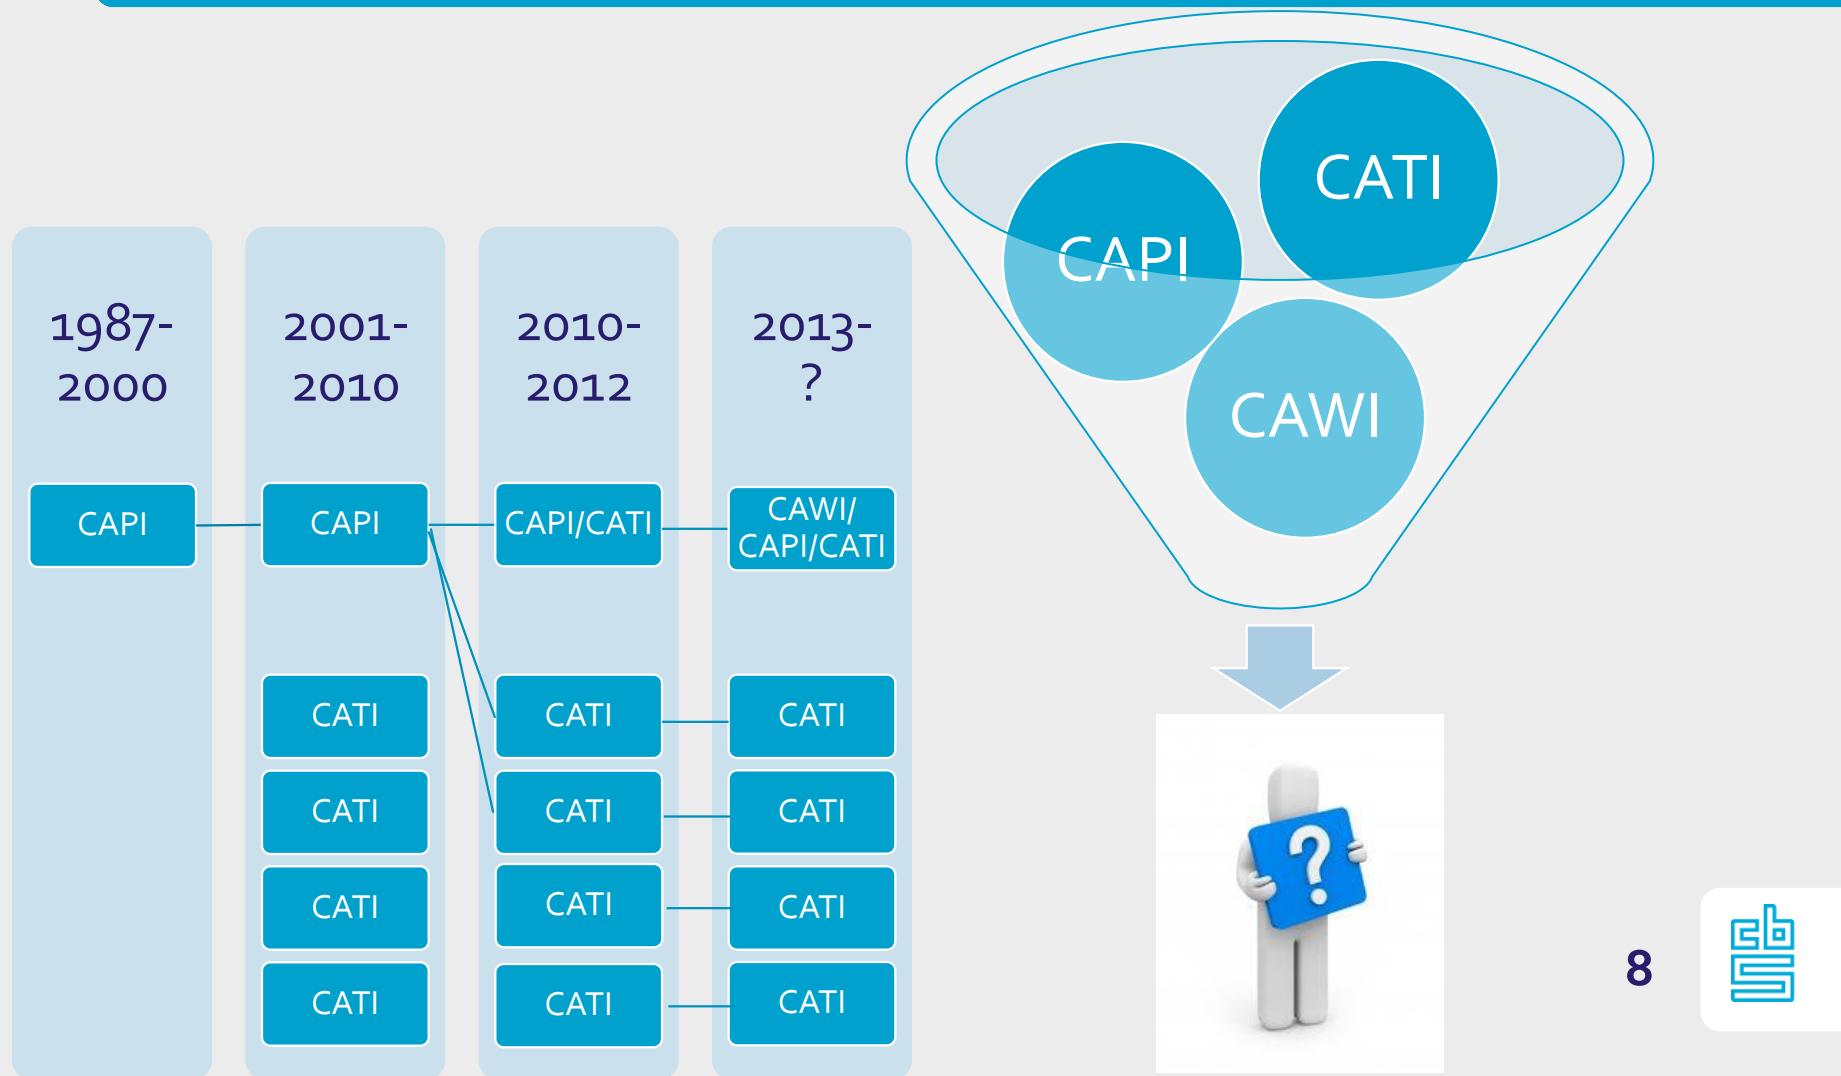

Mixed mode design

- + Most efficient data collection
- + Modularization: flexibility
- + Takes into account respondents' needs

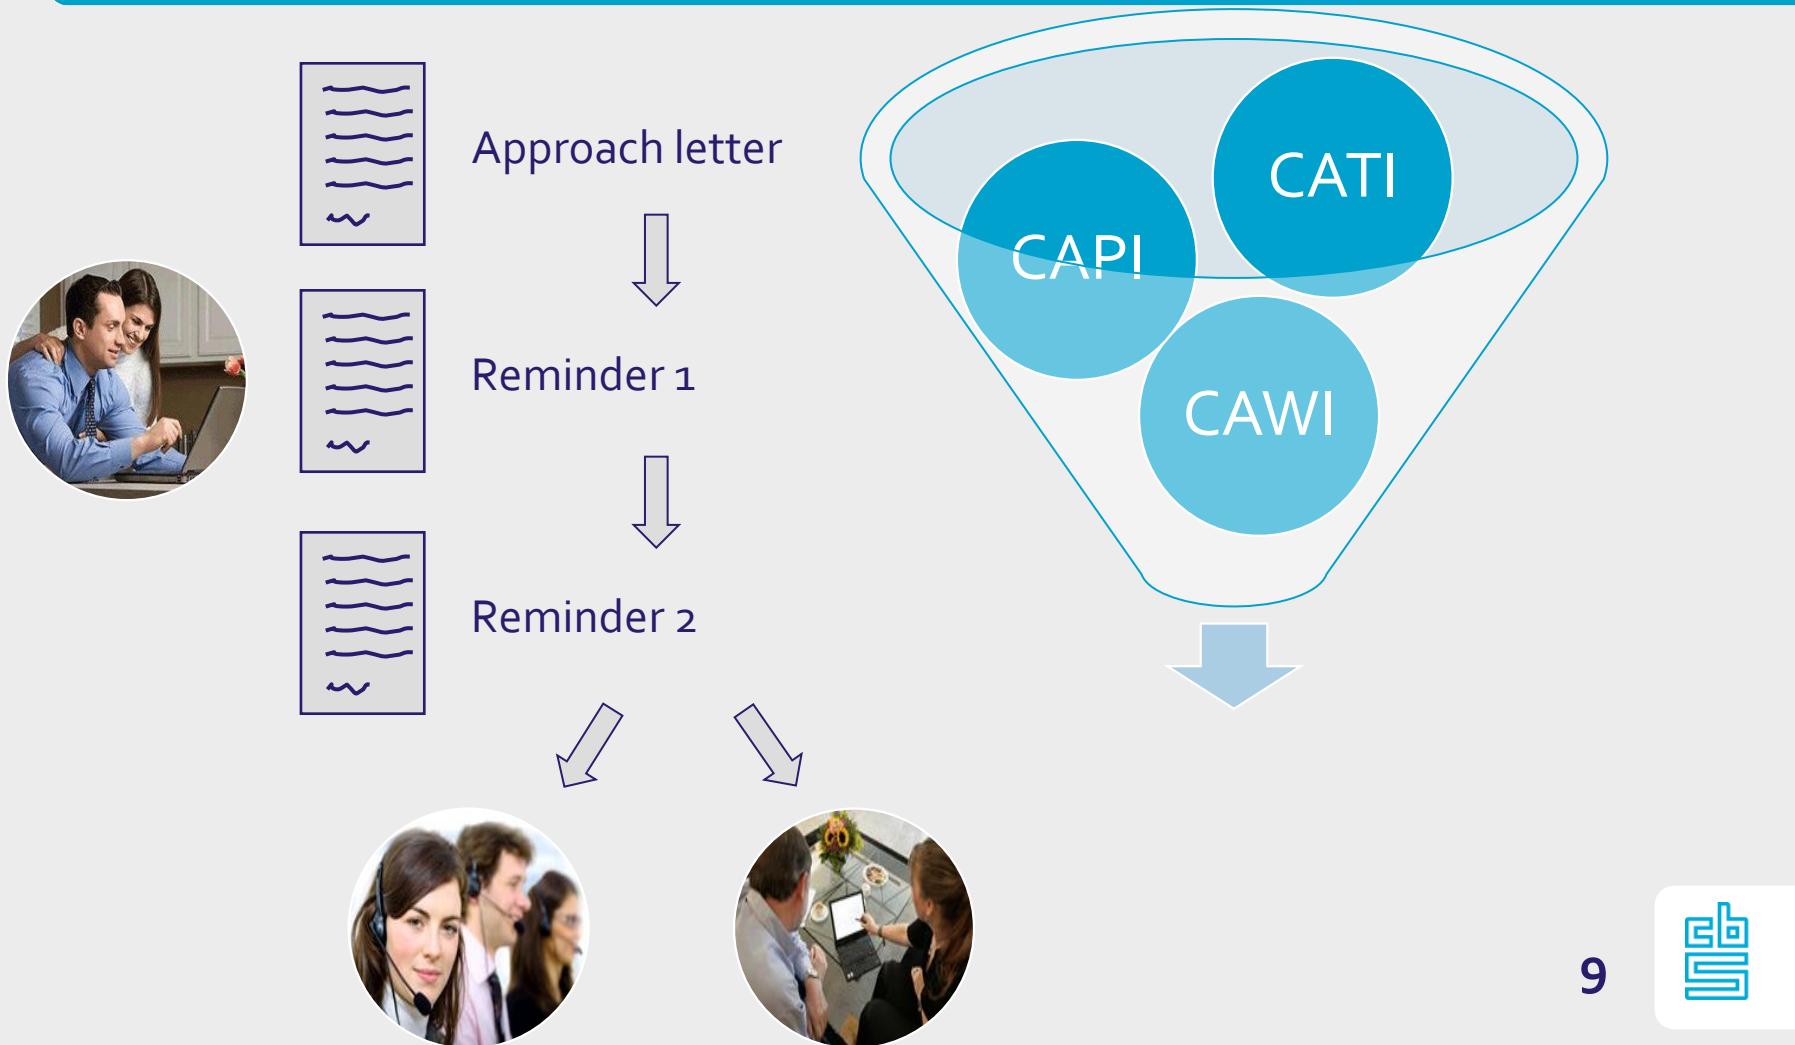

- Panel recruitment rate
- Complexity
 - technical: hh-box, switchboard, coding
 - process...
