

## Construction costs index for residential building

May 2014

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In May 2014 the index decreased by 0.1% compared with the previous month and by 0.7% compared with May 2013.

### Construction costs index for residential building. May 2014 (a)
