

Construction costs index for residential building

August 2014

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In August 2014 the index increased by 0.2% compared with the previous month and by 0.1% compared with August 2013.

Construction costs index for residential building. August 2014 (a)
