

Construction costs index for residential building

September 2014

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In September 2014 the index remained unchanged compared with the previous month and increased by 0.1% compared with September 2013.

Construction costs index for residential building. September 2014 (a)
