

Costs index for residential building and for road construction

February 2015

The construction costs index for residential building approximates the monthly evolution of costs of the residential construction sector. Since January 2013 the indices are calculated with reference to the base year 2010.

In February 2015 the index decreased by 0.2% compared with the previous month and increased by 0.1% compared with February 2014.

Construction costs index for residential building. February 2015 (a)

	Percentage changes	
	Feb 2015 Jan 2015	Feb 2015 Feb 2014
