

Notification of general government deficit and debt according to the excessive deficit procedure

Years 2013-2016

In this release, Istat provides government deficit and debt data based on figures reported in the second 2017 notification by Italy to the EC¹ for the years 2013-2016, for the application of the excessive deficit procedure (EDP). This notification is based on the ESA 2010 system of national accounts. No reservations have been expressed by Eurostat on the data reported by Italy, they are the same already disseminated on the 22th of September:

(http://www.istat.it/en/archivio/203741 "Annual National Accounts").

Istat also provides information on the underlying government sector accounts, as well as on the contribution of deficit/surplus and other relevant factors to the variation in the debt level (stock-flow adjustment).

According to the Protocol on the excessive deficit procedure annexed to the EC Treaty, government deficit (surplus) means the net borrowing (net lending) of the whole general government sector (central government, state government, local government and social security funds). It is calculated according to national accounts concepts (European System of Accounts, ESA 2010). Government debt is the consolidated gross debt of the whole general government sector outstanding at the end of the year (at nominal value). For further references see the "Manual on government deficit and debt – Implementation of ESA 2010", 2016 edition:

The government deficit to GDP ratio decreased from 2.6% in 2015 to 2.5% in 2016. The primary surplus as a percentage of GDP, equal to 1.5% in 2016, remained unchanged compared to 2015.

The government debt to GDP ratio was 132.0% at the end of 2016, up by 0.5 percentage points with respect to the end of 2015. Data concerning the general government debt are compiled and disseminated by the Bank of Italy².

TABLE 1. MAIN AGGREGATES OF GOVERNMENT FINANCE STATISTICS Years 2013-2016 (a), data in millions of euro and in percentage of GDP

	2013 (b)	2014 (b)	2015 (c)	2016 (c)
Net borrowing (-)	-47,333	-49,142	-42,702	-41,937
as a percentage of GDP	-2.9	-3.0	-2.6	-2.5
General government consolidated gross debt (d)	2,070,228	2,137,316	2,173,329	2,218,471
as a percentage of GDP	129.0	131.8	131.5	132.0
Interest expenditure	77,605	74,377	68,040	66,475
as a percentage of GDP	4.8	4.6	4.1	4.0
Net borrowing net of interest	30,272	25,235	25,338	24,538
as a percentage of GDP	1.9	1.6	1.5	1.5
GDP	1,604,599	1,621,827	1,652,153	1,680,523

⁽a) Possible differences in the sums are due to rounding off.

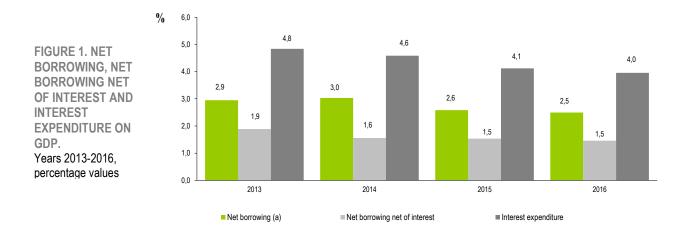

(c) Half-finalized data.

⁽b) Final data.

⁽d) Final data for the years 2013-2016.

¹ Notification Tables concerning all EU Countries can be found on the Eurostat web page http://ec.europa.eu/eurostat/web/government-finance-statistics/excessive-deficit-procedure/edp-notification-tables

² See "The Public Finances: Borrowing Requirement and Debt – August 2017"; 13 October 2017.

(a) Please note that here by convention the sign of the net borrowing is positive.
